DETAILED ACTION

Allowable Subject Matter

1. Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance: The allowability of the claims resides, at least in part, that the closest prior art of record **Ayres (6,854,350)** does not disclose or suggest, alone or in combination the step of:

Regarding independent claim 1, coating said metal using a phototool of said vehicle gauge face; developing said coating on a surface of said metal vehicle gauge face; etching said metal vehicle gauge face of a first and second surface; and stripping said etched metal vehicle gauge face, in combination with the other elements and features of the claimed invention.

As for independent claim 12, coating a predetermined sized metal vehicle gauge face with a photo resist on both sides of said metal vehicle gauge face; exposing said photo resist to an UV light through aid phototool; developing said photo resist to remove an unexposed area of said photoresist from said metal vehicle gauge face; etching said metal vehicle gauge face to remove an exposed area of said photo resist; stripping said photo resist with a stripping solution; and inspecting completed metal gauge face for compliance with predetermined specifications, in combination with the other elements and features of the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
